EDUCATION

BSc in Computer Science & Engineering
American International University-Bangladesh

📅 09/2019 - 09/2024   📍 Dhaka, Bangladesh

- Relevant Coursework: Web Technologies, Data Structures, Algorithms, Database Systems, Software Engineering

SUMMARY

Full-Stack Web Developer skilled in building scalable MERN stack applications with MongoDB, Express.js, React.js, and Node.js. Proficient in JavaScript, RESTful API development, and Agile methodologies, leveraging GitHub for version control. Passionate about delivering clean, user-focused code and collaborating on innovative projects

EXPERIENCE

PROJECTS

E-commerce Platform (MERN Stack)   📅 2025

🔗 https://github.com/Ahsanul-Mostakin/E-commerce-MERN-Project

Technologies: Node.js, Express.js, MongoDB, React.js, JWT

- Developed a full-stack e-commerce platform with distinct user and admin roles.
- Implemented key features: registration, profile management, order tracking, and payments.
- Built secure admin modules for user, product, and order management using JWT authentication.

To-Do List Application (React)   📅 2024

🔗 https://github.com/Ahsanul-Mostakin/React-To-Do-List

Technologies: React, JavaScript, HTML, CSS

- Developed a single-page To-Do List application using React with modular, reusable components.
- Implemented state management to handle task creation, completion, and deletion.
- Styled the application using CSS for a clean, responsive user interface.

To-Do List Application (Node.js & EJS)   📅 2024

🔗 https://github.com/Ahsanul-Mostakin/To-Do-List

Technologies: Node.js, Express.js, MongoDB, EJS

- Built a full-stack To-Do List application using Node.js and Express.js, following RESTful architecture.
- Created dynamic templates with EJS to support task categorization and interactive user experience.
- Integrated MongoDB for persistent task storage and reliable data handling.

Weather Dashboard with Real-Time Data   📅 2024

🔗 https://github.com/Ahsanul-Mostakin/Weather-app

Technologies: Node.js, EJS, OpenWeather API

- Built a weather app displaying real-time data using the OpenWeather API.
- Designed dynamic templates for interactive user experiences with EJS.

CERTIFICATION

Udemy

SKILLS

Technical Skills

Frontend Development: React.js, HTML5, CSS3, Bootstrap, Material UI
Backend Development: Node.js, Express.js, RESTful APIs
Programming Languages: JavaScript, Python
Databases: MongoDB, MySQL
Cloud & DevOps: Basic AWS (EC2, S3), Docker (Containerization)
Security & Testing: JWT Authentication, Basic Unit Testing (Jest)
Tools & Technologies: Git, GitHub, Postman, Visual Studio Code
Collaboration & Methodologies: Agile/Scrum, Git Workflow (Git Flow, Pull Requests)
Other Skills: Object-Oriented Programming (OOP), Responsive Design, Problem-Solving

Soft Skills

Strong problem-solving abilities, effective communication, teamwork, adaptability, and time management.
